THE AUSTRALIA

Arrives in San Francisco and Reports No Change.

No Intention Indicated on the Part of the United States Government to Insist Upon the Revision of the Queen-Minister's Address.

SAN FRANCISCO, Nov. 20.—The steamship Australia from Honolulu arrived inside the Golden Gate at 8:40 o'clock Saturday morning.

The new United States minister, Willis, presented his credentials to President Dole of the provisional government and had not indicated prior to the departure of the Australia any intention on the part of the United States government to insist upon the restoration of Queen Liliuokalani.

Honolulu, Nov. 11.—But little of a definite nature has transpired since the arrival of the Australia. The most significant was one of the remarks of Minister Willis, when he presented his credentials on the 7th instant together with the reply of President Dole.

Minister Willis' remarks were as follows: "Mr. President—Mr. Blount, the late envoy extraordinary of the United States to your government, having resigned his office while absent from his post, I have the honor to now present his letter of recall to you, and to inform you that his sincere regret that he is unable in person to make known his continued good wishes on behalf of your people and his grateful appreciation of the many courtesies both personal and official, which while here he has received from you, is to be expressed by me."

THE TARIFF BILL.

The Measure Nearly Ready for the Full Committee—Wilson's Ideas Follow Very Closely the Chicago Platform.

WASHINGTON, Nov. 21.—Before the subcommittee of ways and means committee having in charge the schedules of the tariff bill adjourn Monday afternoon from their little dark lantern room at the capitol they will have put into shape the new tariff bill. Chairman Wilson has sent out word to a number of personal friends who called to see him, among them three or four interested persons from New York, that he can not see any one Monday, as the last touches are being placed upon the measure, which has been kept him busy for three months.

The bill will be somewhat revised by the full democratic membership of the committee on ways and means before it will be laid before the entire committee the first of next week, but it may be stated that it will have no material changes from its present figures.

The Wilson tariff bill will fairly represent the pledges of the Chicago platform.

It will recognize the assertion that a tariff for protective purposes is unconstitutional and will levy duties only for revenue.

The bill will be termed a "slashing cut." The aim has been, as far as possible, to make horizontal reductions. Where labor has most largely entered into the product the reduction has been less than where capital has been the consideration.

Glass and steel receive the deepest cuts. Blown glass is reduced about one-half, but plate glass is reduced about fifteen per cent. Only steel rails are heavily cut, and the duties are made a valon instead of specific.

The many additions to the free list are well known. The principal ones being wool, iron ore, copper, silver, lead, iron, salt, lumber, coal and pig iron. As the bill now stands, the bounty on wool is \$1.00 per hundred pounds, and on iron ore, \$1.00 per ton. The bounty on copper is \$1.00 per hundred pounds, and on silver, \$1.00 per hundred pounds. The bounty on lead is \$1.00 per hundred pounds, and on iron, \$1.00 per hundred pounds. The bounty on salt is \$1.00 per hundred pounds, and on lumber, \$1.00 per hundred pounds. The bounty on coal is \$1.00 per hundred pounds, and on pig iron, \$1.00 per hundred pounds.

FRIDAY, NOVEMBER 24, 1893.

The northern leader of the Mexican revolutionists offers \$75 a month for recruits.

General Jeremiah Rusk, Secretary of the Department of Agriculture under Harrison, died a few days ago.

The Fleming News is a new paper started at Flemingsburg. The numbers which have appeared up to date are so bright and newsworthy as to place it in the front rank of weekly papers.

As usual the condemnation showered upon the administration for its action in the Hawaiian matter proved premature and unjust. The Harrison administration is the one which is "catching it" now.

Thousands of counterfeit tickets have been sold and honored over railroads leading out of Chicago in the last few weeks. The counterfeit was so nearly perfect that it was accepted without question until discovered by accident. The railroads now have \$300,000 worth in possession, over half of which were honored for transportation. It is estimated that they have suffered a loss amounting in the aggregate to \$300,000.

The Republicans will have much to be thankful for. First, that they are living under a Democratic Administration, and then that the disappointed Democrats helped them to win a great victory on November 1st.—Henderson—Gleaner

The grand jury at Guthrie, O. T., has submitted a voluminous report to the Federal Court regarding the Cherokee Strip opening frauds. The report alleges that stupendous frauds were committed and calls for a congressional investigation.

CHARLEY.

James M. Dixon departed this life, Nov. 11, 1893, of typhoid fever. He was a member of Charley Lodge, No. 284, I. O. O. F., and a member of the Christian Church. He was born in Johnson county, Ky., and lived there until 12 years ago, when he moved to Lawrence county and has been engaged in the goods business ever since. At his death he was 40 years and 6 months old.

He was buried at Paintsville in the grave yard by the members of the order of which he was a worthy member.

Resolved, 1st, That in the death of Bro. Dixon, Charley Lodge loses one of its worthiest members, and that the members wear the usual mourning sign for thirty days.

2nd, That the members of this Lodge return their sincere and grateful thanks to the members of Paintsville Lodge, for their kind assistance at the funeral of Bro. Dixon.

3d, That we are thankful to Mr. Cheek, for kindness shown us in preparing a free dinner for all who would eat with him.

4th, That these resolutions be spread upon the minutes of our Lodge, and the hall draped in mourning for 30 days.

That we, as brothers, promote the assistance to the widow in her great grief, and say that although her loss is great, that Brother Dixon's gain is far greater, and though her little children are fatherless in this world, they are nevertheless not friendless.

6th, That the BIG SANDY NEWS be requested to publish these resolutions and a copy furnished the family.

The Best Plaster.—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. Do not forget to use it by A. M. Hughes, Louisville, Ky.

BRADLEY'S CHAPEL.

Since the cold winds of November 7th have caused a melancholy gloom to be cast over our quiet little neighborhood and our friend, the Country Greenhorn, together with the remainder of the good Democrats, has sought a happier country in the head of Salt River, I will endeavor to write to the News and let the people know what has happened.

Mr. Jas. Compton, the Louisville blacksmith, spent Sunday with home folks at this place.

Married, at the residence of the bride, near Kinners, Ky., Mr. W. M. Cooksey, of Fallsburg, to Miss Lottie Burk. May happiness be their lot.

Lute Hutchinson, of Fallsburg, was visiting at Wm. Hughes' last Sunday. What's the attraction, Lute?

Gusie Shortridge, Lillie Burton, and Jas. Casey spent the whole of last Saturday waiting for the train. Misses Carrie Hughes and Nora Casey are talking of visiting Webbville in the near future. Who is it, ladies?

Susan and Alma Crank will spend Christmas with friends on East Fork.

Wiser Adkins, of Ashland, is visiting relatives and friends at this place.

If this escapes that iron jawed monster, the waste basket, I will write again.

PETE.

Beware of Ointments for Catarrh that Contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription of a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them.

Halls Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Halls Catarrh Cure be sure you get the genuine. It is taken internally, and acts in the blood.

Sold by A. M. Hughes, Louisville, Ky. 50c per bottle.

It is estimated that the richest of civilized peoples is the English, with \$1,266 per capita. In France the average is said to be \$1,102, in the United States \$1,020, while by sale of their lands to the United States Government some of the Indian tribes are worth \$5,000 to \$10,000 per capita, men, woman and child.

Mr. W. M. Terry, who has been in the drug business at Elkhart, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I have ever used." There is good reason for this. No other will cure a cold so quickly, no other affords so certain a preventive of colds, and no other affords so much relief in cases of whooping cough. For sale by A. M. Hughes, Louisville, Ky.

The East Tennessee Land Company, which founded the town of Harriman, Tenn., and which is the largest land company in the State, has been placed in the hands of receivers.

Are your children subject to croup? If so, you should never be without a bottle of Chamberlain's Cough Remedy. It is a certain cure for croup, and has never been known to fail. It gives relief as soon as the croupy cough appears. It will prevent the attack. It is the sole reliance with thousands of mothers who have croupy children, and never disappoints them. There is no danger in giving this remedy in large and frequent doses, as it contains nothing injurious. 50-cent bottles for sale by A. M. Hughes, Louisville, Ky.

Job Did It.

Interior-Journal: When a person remarks "he makes me tired," he is not usually aware that he is quoting scripture. Job was the first man to use the expression, but he put it more elegantly. "He hath made me weary." See Job 15:7.

Sheriff's Sale for Taxes.

I, or one of my deputies will, on Monday, Dec. 18th, 1893, at the court house door in Louisville, Ky., offer for sale to the highest bidder, the following described property, or so much thereof as may be necessary to satisfy the tax against it for the year indicated. The terms of sale are cash in hand:

R. H. Garland, 75 acres of land adjoining Julia Boyd, tax of 1892.

Samuel Hayes, 100 acres of land adjoining John Travis, for 1892.

Z. H. Moore, 75 acres of land adjoining A. Carter, taxes of 1892.

Matthew Sparks, 100 acres of land adjoining John Love, for 1892.

Samuel Thompson, 100 acres of land, adjoining A. Miller, for 1892.

Harvey Hinkle, 8 acres of land adjoining Gabe Endicott, for 1892.

Emily Maynards acts, 20 acres of land adjoining G. Shroud, taxes of 1892.

Wm. Dole, 27 acres of land adjoining Wm. Sturgill, taxes of 1892.

Wm. Endicott, 30 acres of land adjoining John Endicott, for 1892.

A. J. Wilson, S. L. C. By T. Wilson, D. S.

Robert B. Hunt, 52 acres land on Dry Ridge adjoining J. R. Dean, tax for 1893.

Green Thompson, 50 acres land on Little Blaine, adjoining Lewis Thompson, tax for 1893.

SCHOOL AND CHURCH.

Schools at Oxford were established by Alfred the Great about 878.

National grants in aid of education were first made in the United States in 1863.

Schools of commerce, business colleges, have existed in Europe for over two hundred years.

The church of England has organized a society for the promotion of kindness to animals.

There are sixty-five Baptist churches on Long Island, with a total membership of 17,000, and property valued at \$2,000,000.

The American Unitarian Association and many benevolent institutions in Boston have received considerable amounts of money from the estate of the late Annie M. Sweetser.

The use of the magic lantern has become so general in England that a Methodist Lancashire union has been formed for the loaning or interchange of slides for missionary, scientific, evangelistic and other purposes.—Zion's Herald.

The committee selected by the Directors of the American Unitarian Association to prepare a liturgy has finished its task, and the result appears in the volume just issued by the association—"Book of Prayer and Praise for Congregational Worship."

The cost of a medical education, according to the Hospital, is, in London, \$400 to \$500 per year, for five years, plus \$700 to \$1,000 in fees, making a total of \$2,700 to \$3,500. In this city it would be \$600 a year for three years, and \$300 for fees as a minimum estimate.—N. Y. Medical Record.

Mr. William B. Green, senior professor in the Princeton Theological seminary, has announced that students in that institution must not play football hereafter, because "the rough and brutal game does not comport with the purpose for which students are there, and must be abolished."

The number of church members in Congregational churches, as printed January 1, 1893, was 542,735. The donations to the board's work for the year ending August 31, 1893, were \$483,187.75, less than an average of two cents a week for each member. A nickel a week from each would be nearly a million and a half a year. A special donation of sixteen cents from each member would meet the deficit with which the current fiscal year opened.—N. Y. Observer.

It will be remembered that M. de Rougemont was in this country last summer with a view to the establishment in Paris of a secular journal which should be in the interest of good morals and Protestantism. This has been accomplished. Le Signal is under the editorship of M. Eugene Revelland, and it appears to be a new departure in French journalism. We observe that the International congress at Lausanne passed a resolution cordially endorsing it.

Prof. Thayer, of Harvard, expresses the opinion, touching the discovery of the Gospel according to Peter, that "brief as is the recovered fragment, it attests indubitably all four of our canonical books." Furthermore, when Prof. Hall and Dr. Harnack published articles to show that Psalm xxv was written by David, they assumed the office of higher critics according to their lights. It is the abuse, not the use, of this or any other method of Bible study that is to be condemned.—Christian at Work.

During the last six months, to September 1, 1893, 175 colporteurs of the American Tract society labored in thirty-three states and Canada. Their combined time equaled 360 months of labor. They visited 75,691 families, in 17,124 of which they engaged the persons in religious conversation or prayer; circulated by sale and grant 53,090 volumes of Christian literature; addressed 2,385 meetings; found 6,035 families destitute of all religious books except the Bible, and 5,116 families without the Bible. They visited 11,892 Roman Catholic families, and found 16,110 Protestant families who rarely ever attend evangelical preaching.—Chicago Standard.

A ROLAND FOR HIS OLIVER.

The Negro Flourished Big Words Quite as Easily as the Lawyer.

A Kentucky lawyer was standing on the steps of the Covington post office the other day, when an old colored man came up and, touching his hat, asked:

"Kin you tell me, is dis de place where dey sell postage stamps?"

"Yes, sir; this is the place," replied the lawyer, seeing a chance for a little quiet fun. "But what do you want with postage stamps, uncle?"

"To mail a letter, sah, of course."

"Well, then, you needn't bother about stamps; you don't have to put any on this week."

"I don't?"

"No, sir."

"Why—for not?"

"Well, you see, the conglomeration of the hypothesis has differentiated the parallelism so much that the congruency don't emulate the ordinary efficiency, and the government has decided to send letters free."

The old man took off his hat dubiously, shook his head, and then, with a long breath, remarked:

"Well, boss, all dat may be true, an' I don't say it ain't; but just sposen dat de government is de aggregation transubstantiation de ignominiousness de pendence de de consequences—don't you qualify dat de government would confiscate dat dare letter? I guess I'd better put some stamps on anyhow, for luck."

And he passed solemnly on.—Cincinnati Commercial.

A Correction.

Paintsville, Ky., Nov. 20, 1893. Editor BIG SANDY NEWS:

In your issue of the 16th inst. speaking of "Up Sandy Elections," you said that "at Paintsville the 'cow' ticket headed by Warren M. Meek for Police Judge, was elected. The 'cow' ticket is the whiskey ticket."

In behalf of the good, honest, law-abiding people of Paintsville, I desire to say that they have not elected officers that are friendly to the numerous blind-tigers that are now in full blast in our town, but on the contrary the new officers will use every energy to bring all law-violators to justice. Law-abiding people have nothing to fear from the official acts of the new officers.

The "cow" was the device of the citizens ticket—meaning that that ticket opposed the present cow law now in force at this place.

A PET ORANG-OUTANG.

Some of the queer animals marked for extermination.

Borneo is the home of the orang-outang, which, leaving out the genus man, occupies the third place from the highest in the animal kingdom. The gorilla has the highest place, the chimpanzee comes next in order, then the orang. Thanks to the fond of fighting as are human beings, and like them, life of each other's fingers and lips.

They all show, in a human-like way, the emotions of pain, rage, satisfaction and affection. Baby orangs range, as human infants do, from good to bad. Some, when they are good, are "very good, indeed," and others, when they are bad, "are horrid." Mr. Hornaby, a naturalist, took a baby orang from its dead mother shot in the cause of science, which had the temper of a tiger.

An orang's instinct is to seize and bring an offending hand to its mouth, that it may bite the member. This baby orang, though only a few months old, made so many attempts to put the naturalist's hands up to its mouth that he was obliged to tie its elbows together behind its back.

Even then, when he was not watching it, the orang rolled over and seized the calf of his leg between his teeth. But for the hunting trousers and woolen stockings, the naturalist would have lost a piece of his leg. At last it relieved the naturalist of anxiety by dying. A baby orang of a more gentle disposition was brought to Mr. Hornaby with its hands and feet bound.

When he approached it, instead of attempting to bite, it whined softly and rolled up its big brown eyes so appealingly that the naturalist cut its bonds and placed it on a pile of soft straw. It soon became a pet and was named "Old Man," on account of its bald head and air of profound gravity. It was fond of being held in the naturalist's arms, and when he grew tired it would grasp the folds of his flannel shirt and hold itself, thus showing its superiority to helpless human infants.

It would lie on Mr. Hornaby's lap while he was writing, reading or eating, and amuse itself by catching hold of his penholder or book or by tugging at the tablecloth. Its favorite food was bananas and sugar, but it learned to relish rice, cooked meat, canned fruit and bread, and to drink tea and coffee, milk and chocolate. Beer, wine or spirits it would not touch.

The baby did its best to amuse its master. Drawing his hand to its mouth and making a pretense of biting and making very faces were its favorite tricks. If the naturalist sat down to a meal and began to eat without feeding the baby, it would whine, scream, throw itself on the floor on its back and kick like a spoiled child.

His happiness was complete when its master put it to sleep. He would lie with him. It would lie snuggling up to Mr. Hornaby's breast, with its head on his shoulder, its face close to his neck, and its arms and legs clasping his body. It could not learn to swim, and on Mr. Hornaby putting it in the water, sank helplessly, as if it had been an iron bar.—N. Y. Journal.

WORKING BY THE DAY.

Why a Painter Resented the Help He Had Received.

A painter was working on a new picket fence near a gentleman's residence in the suburbs the other day. When he went to dinner he left his paint and brush where he had left off work. Soon after he was gone a small, plainly-dressed man was seen trailing along. He stopped when he noticed the newly-painted fence and the paint and brush, and muttered:

"Hello, here's one painter that's got a job anyhow. I must get noddin' giving him a lift. Maybe I'll get a nickel or two out of him."

The little man went to work with a will, and by one o'clock he had several feet of the fence painted on one side.

"What in time are you doing here?" was the gruff salute that then greeted his ears.

"I was jest helpin' you out, pardner," said the startled little man, dropping his brush on the ground.

"Helpin' me out, be yer?"

"Yes, that's all—just to keep my hand in."

"Don't expect any pay, do yer?"

"Well—that is, I—stammered the little man.

"Oh, yer do, do yer? Well, if you are in sight for another minute, you'll git it where the chicken got the 'x'."

"But, boss, only a nick—"

"Sneak, now," exclaimed the painter advancing upon the little man threateningly. "I'm working by the day, and the old man keeps his eye on me. You owe me fifty cents now, and I've a good mind to take it out of yer hide, Sneak!"

And then the too-industrious little man that wanted to work at another man's job began a hasty retreat toward Boston, leaving at least one enemy in his rear.—Boston Journal.

It Was a Lesson.

There is no profession which does not require a certain amount of tact. There is a popular impression that all a dentist has to do is to go ahead and hurt people. But this is not the case, and on which his success depends.

A Washington man has just opened a dental parlor. After much waiting a customer came along. It was an old friend, but he did not act sociable. The dentist felt it was his duty to be affable, and he said:

"Good morning; you are looking exceedingly well to-day."

The visitor put his hand to his jaw and plained.

"I look exceedingly well to-day?"

"Yes—that is to say—you—"

but before he could think of anything the customer had grabbed his hat and slammed the door.

Then the dentist murmured: "I have learned one thing to-day. Nothing rouses the indignation of a man with a toothache so much as to tell him he is looking well."

And he got some red ink and a stub pen and wrote it down so that he would never forget it.—Washington Star.

Deceptive Data.

CORRECTION OF A MISSTATEMENT.

The Leader last week stated that the contract for the printing of the town ordinances and charter was let to the NEWS at a higher price than was asked by the Leader. It stated that its bid was twenty-five per cent. lower than ours. In justice to the City Council we take the trouble to state the facts. The NEWS made a bid exactly in accordance with the specifications of the Council. We understand that the Leader did not. The type we are using in the job is ten per cent. smaller than that which the Leader proposed to use, and as the contract was let out at so much per page this difference amounts to just ten per cent. saving. The pages we are making are larger; and another important feature in lowering the price is the use of marginal references instead of sub-headings. These references are not allowed to detract from the width of the type matter on the page, either. Another important point to the Council was to have the work done at once so that the ordinances might go into force as soon as possible. The NEWS was the only bidder who made a satisfactory offer in this regard. Counting these things, an estimate shows our bid to be the lower.

If the Council were "individually doing all they can to starve the Leader out," as it is stated, why was the paper ever given a chance to bid on the work?

The Republicans here are very enthusiastic over the victory which they have gained on the off year by doing as the leaders of the G. O. P. have always done, carrying their points by making false statements to the more weak and ignorant class of people. They organized a jolly party with officers as follows: George W. Crank president, Jerry Coalgrove hole borer, Carl Lovejoy powder boy, Epsilon fuse clipper. The party after organizing employed Hoover to purchase a keg of blasting powder which he will return with Monday night, and some night this week they will have a good time of bursting old forks, knots and gun trees, and is hard to say what they won't do under the intense excitement.

With malice toward none and charity for all I will close.

EDITOR NEWS:

Hoping to interest some of your many readers, I send you a few items of news from Paintsville.

Contractors Milburn and son have the court house for this county about completed. It is a solid, substantial house of modern style, and is fully up to the necessities of the people of this county, and is satisfactory to our citizens.

Andy Stone, who was convicted of manslaughter at the last term of our Circuit Court, on the charge of murdering Ben Cunningham, in 1891, after having his case appealed to the Court of Appeals, was recently sent on to the penitentiary, as the Court of Appeals failed to find any error in the judgment of the lower court. J. Drangham, an accomplice in the crime, is still at large.

Magoffin county has the construction of a court house in progress, but the contractor or says that on last Saturday five men, who were drunk and armed with Winchester and pistols, assaulted him and notified him to leave the county, which he did right quick, for the protection of his life. He says that two of Magoffin county's deputy Sheriffs were members of the gang that assaulted him. Work on the house is suspended, although nearly completed, and the contractor says he has five thousand dollars of his own money invested in the house.

Mr. John F. Hames, who has been very low with fever, is recovering.

Central University defeated Central College Saturday at Lexington in the greatest foot-ball game in the history of the State. The score was 20 to 18. The wildest enthusiasm attended the contest, which was for the State College League championship. In the three years that foot-ball has been a college sport in Kentucky it is the first time that the orange and white of Centie have gone down in defeat. The depression at Danville is correspondingly as great as the joy at Richmond over the result.—C. J.

General Secretary-Treasurer Hayes Little
draws his Charge—He Will Probably Be
Ousted.

PHILADELPHIA, Nov. 21.—The Powder-
y-blight in the general assembly of
the Knights of Labor reached a
climax Monday evening when
the general secretary-treasurer
openly withdrew his charges of
malfeasance in office against the
general master workman and
colleagues on the executive board,
A. W. Wright and John Devlin.
At Tuesday's session the gen-
eral assembly, after consideration of
the finance committee's report, which
will be presented Tuesday morning,
will declare the office of secretary-
treasurer vacant, and vindicate the
accused officials. The amount in-
volved in Mr. Hayes' account was
about \$100,000, and it is said the
finance committee's report will show
that the order is indebted to John De-
vlin in the sum of \$900 in undrawn salary.
The office of secretary-treasurer
pays \$2,000 per year, and the assembly
will, Tuesday, after ousting John W.
Hayes, elect his successor.

planter would be taken away and be
sent to a more powerful rival. Henry
C. Stuart, consul general at Guatemala,
reports that the president's decree is to
go into effect on March 16, 1894.

EVEN WITH THE JUDGE.

An English Newspaper Man Who Proved
Not Lacking in Nerve.

Even the imperturbable American
"newspaper man" could not surpass
the sang froid displayed recently by a
well-known London journalist.

This gentleman was asked to appear
as a witness in a case and waited until
his patience was exhausted, when he
called out to a friend, who was also in
the ante-chamber, that if he were not
summoned within five minutes he
should go away.

TIED UP.

The Lehigh Valley Railway Blocked—
Thus Far the Strikers on Top.

BUFFALO, N. Y., Nov. 21.—The freight
blockade on the Buffalo section of the
Lehigh Valley railway is complete.
The promise of the officials to move
the usual trains Monday was not even
partially fulfilled. The Lehigh valley
yards are crowded by long avenues of
freight trains, all ready to move, but
these thirteen yard engines, only two
are working, and one of these did not
get to work until late in the afternoon,
and it is manned by a green crew.

EMANCIPATION.

President Barrios, of Guatemala, Puts a
Stop to Slavery.

WASHINGTON, Nov. 21.—President
Barrios, of Guatemala, has published a
decree which is, in effect, a proclama-
tion of emancipation of the laboring
classes from slavery.

It has been the custom of the govern-
ment, through its military agents, to
take forcible possession of the persons of
the lower classes at any and all
times, sending them to work where
they pleased. It often happened that
the voluntary laborers of a small
planter would be taken away and be
sent to a more powerful rival. Henry
C. Stuart, consul general at Guatemala,
reports that the president's decree is to
go into effect on March 16, 1894.
